7	Page section loading animation	Trivial	Desktop (Chrome, MS Edge, Firefox & Safari) Mobile (Android & iOS)
8	A comma is missed before the year within the event card	Trivial	Desktop (Chrome, MS Edge, Firefox & Safari) Mobile (Android & iOS)

Description:

The „Cost“ field accepts any string not only numbers

Steps:

1. User opens the website (<https://damian-events.coursedog.com>)
2. User clicks on „Request an event“ within the bottom-right side section
3. User selects „Speaker“ from the dropdown menu.
4. User fills in the cost section with the following value „costString“
5. User clicks on „Submit“ button.

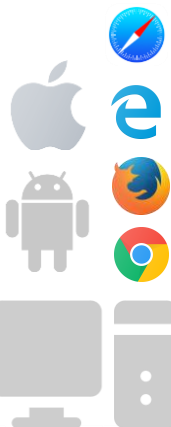

Expected:

1. No string should be accepted within the cost field
2. User should be notified that only number are allowed within the cost field.

Actual:

„Cost“ field accepts any value even string one.

➤ Kindly check the attached screenshot on the next page.

Clicking on the month name to select the current month doesn't work.

Steps:

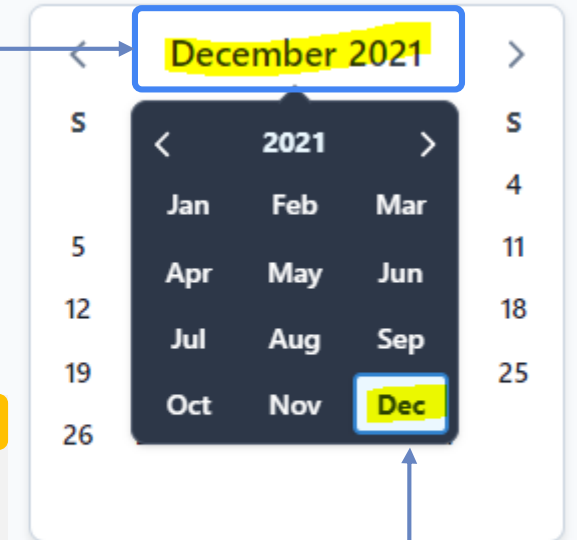

1. Click on the month name within the date picker
2. Click on the current month (e.g. Dec)

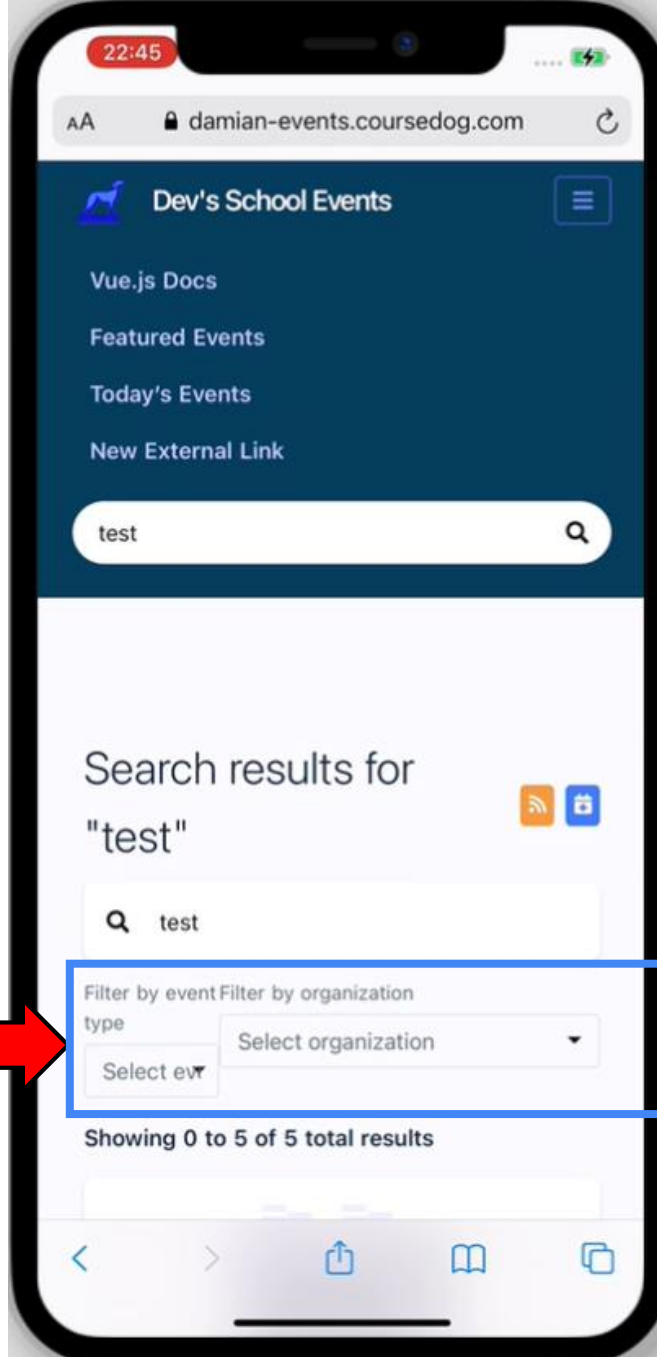

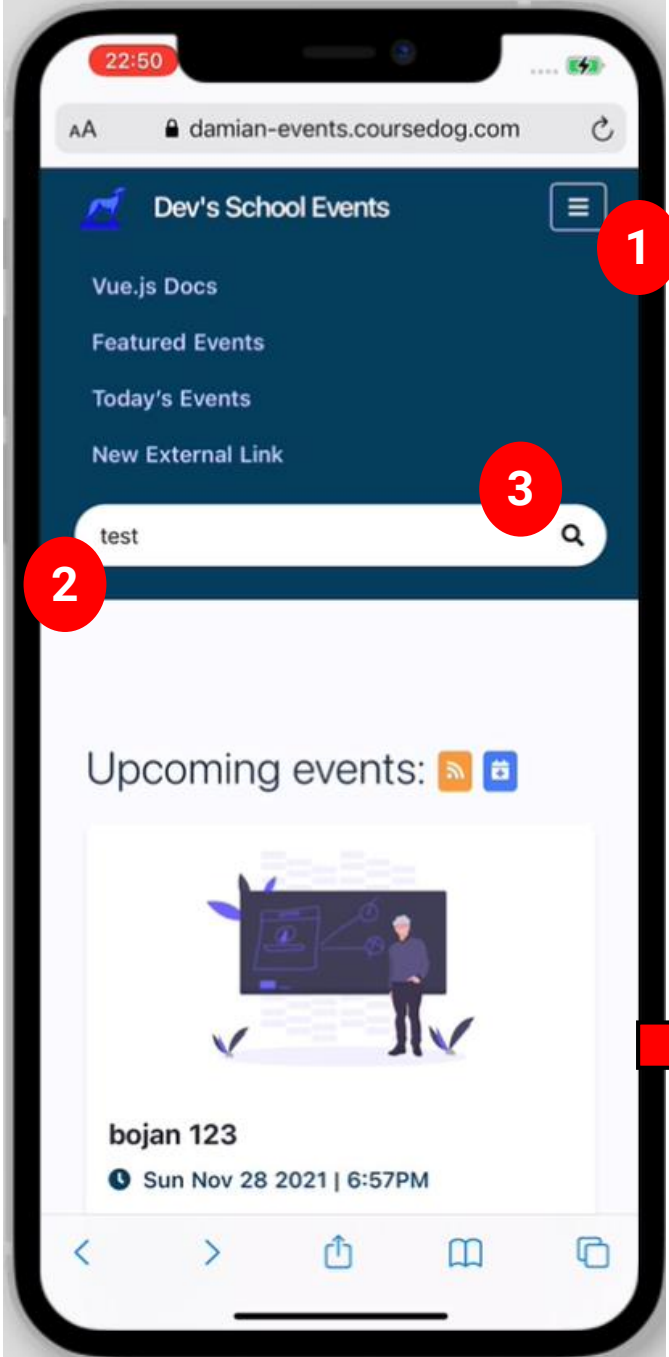

Expected:

Clicked month is selected successfully

Actual:

Clicking on the current month to select it, do no action

Minor

The filter section is not displayed correctly on mobile devices.

Steps:

1. Tap on the hamburger menu
2. Type any text within the search field
3. Tap on the search icon
4. Check the page layout

Expected:

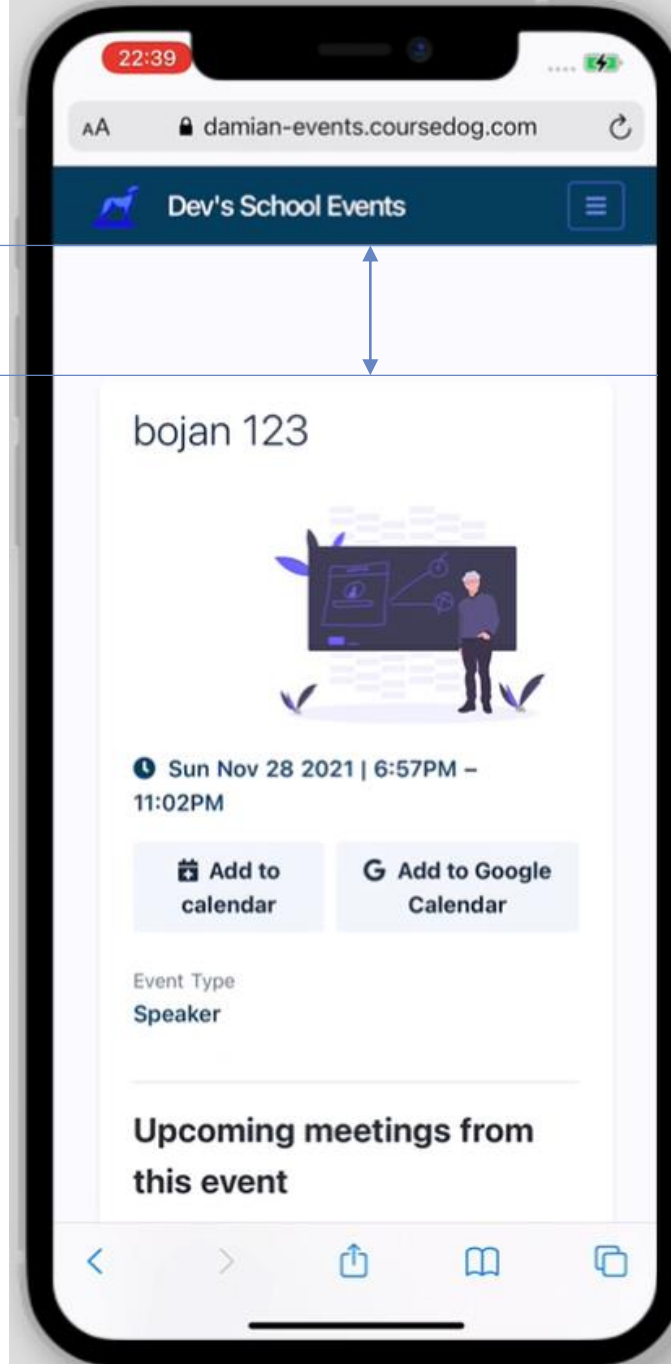

Page layout should displayed correctly

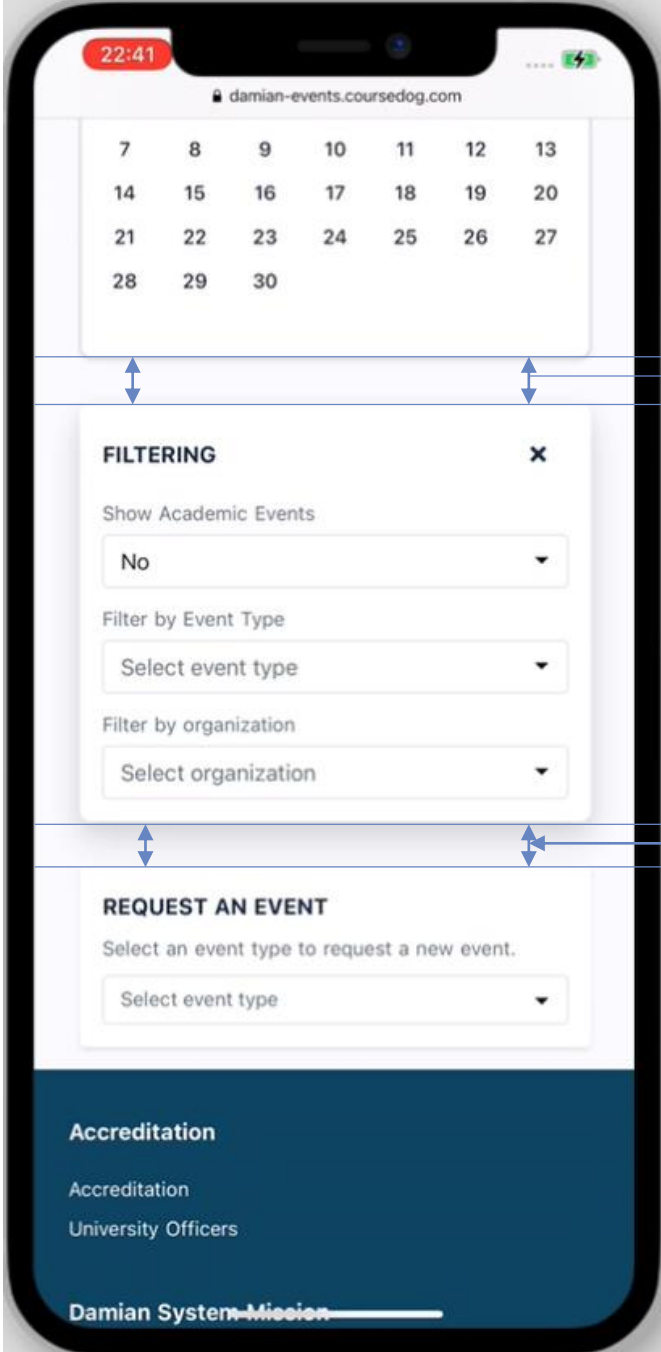

Actual:

Filtler section within the page layout is not displayed correctly

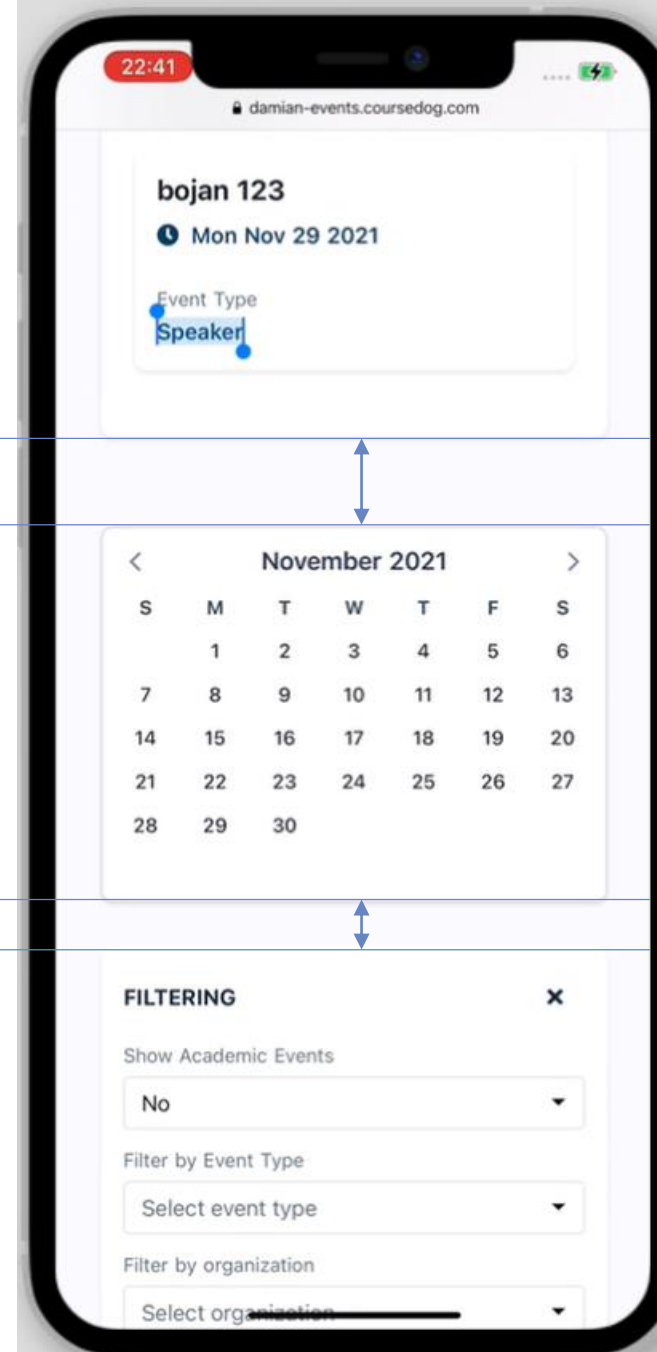

An extra space is shown on top of the page when tested on iPhone and Android mobile

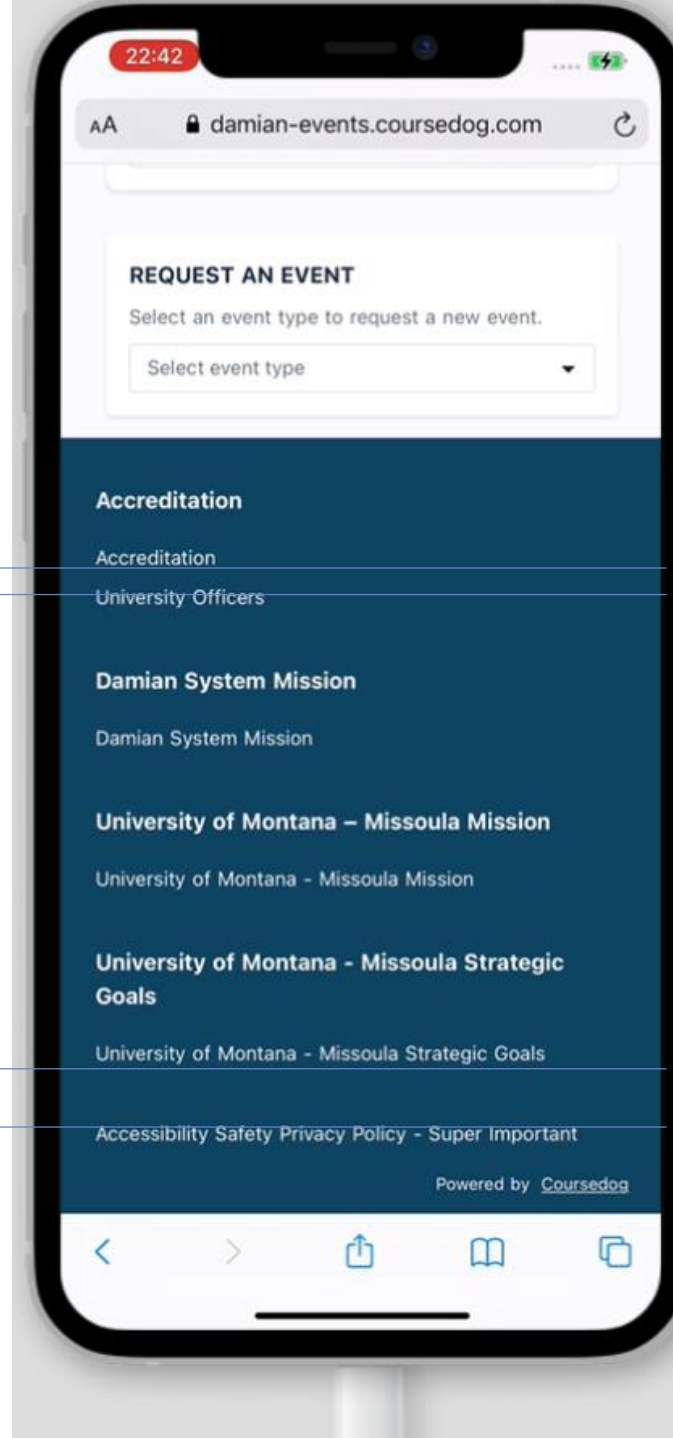

Spaces between different sections should be always the same

Trivial

Spaces between different sub sections within the footer should be always the same
